ACTION REQUIRED - REFERENCES

25X1X7 1. If either of the following publications can be released to [REDACTED], it is requested that sanitized copies be forwarded:

EIC R16-83 "A Summary of the International Trade and Transport of Communist China" 1961 #~~68~~ 7227

EM 62-3-S4 "The Food Situation in Communist China" #~~227~~ 768

2. MIS believes that the release of such realistic appraisals of the CHICOM economy to [REDACTED] will help keep the lure of [REDACTED] trade in its proper perspective. Most of the basic data on the CHICOM economy probably already is available to the [REDACTED] -- however, it lacks the personnel to do the compilation and analytical effort represented by these publications.
